DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 6-27-2005 appears to contain an erroneous patent number for the Lawrence G. Roberts patent. US Patent 6,574,495 inventor is Golman et al. and the subject matter does not pertain to the current application. Applicant should supply the correct US patent number if they want the reference to be considered.

Specification

2. The disclosure is objected to because of the following informalities: Applicant should supply the missing US Serial Number for the application cited on page 1, lines 15-16 of the specification.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 52-69 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the particular method and system for controlling data flow using passive monitoring/analysis of the data flow.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Applicant should supply the missing US Serial Number for the application cited in the specification and supply the correct Patent Number for the Roberts patent if they want this reference considered.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
